PROFESSIONAL EXPERIENCE

Junior Web Developer

Uzhavarbumi Agro Products Pvt Ltd

Jun 2025 - Present

- Developed and maintained business-critical applications including Uzhavarbumi Website, Customer App, Dealer App, and Delivery App using Vue.js and Laravel.
- Designed and implemented responsive user interfaces and admin dashboards to manage customers, dealers, orders, delivery operations, and internal workflows.
- Integrated REST APIs using Axios to enable seamless communication between frontend and backend systems. Implemented reusable components and optimized state management.
- Developed reusable Vue.js components and optimized application state management, improving maintainability and performance.
- Used Git with Gitea and GitHub Desktop for version control, handling feature branches, code commits, merges, and collaborative development workflows.

Tech Stack: Vue.js, Tailwind CSS, Laravel, MySQL, Bootstrap, Git

PROJECTS

Student Management System (ERP System)

Aug 2025

- Developed a Student Management System to manage students, classes, faculty, and administrative operations. Implemented modules for student records, class management, and admin dashboards.

Tech Stack: Laravel, TailwindCSS, MySQL.

GitHub:https://github.com/sakthivel171/student_management-system

Razorpay Payment Integration (Demo Project)

- Integrated Razorpay payment gateway in test mode to simulate secure online payment workflows and transaction handling.

Tech Stack: Laravel, TailwindCSS.

Uzhavarbumi Website and Customer App (Practice Implementation)

- Developed a responsive implementation of the Uzhavarbumi website to practice component-based UI development and API integration.
- Built a customer application prototype with features like product browsing, cart management, and order workflow simulation.

Tech Stack: Vue.js, TailwindCSS, Javascript
